

M.A. INDUSTRIES, INC.

Quality Products through Creative Research

January 3, 2020

CERTIFICATION

M.A. Industries, Inc. certifies that all of its plastics concrete test cylinders meet or exceed ASTM C39, C192, C470, D570, D256 and AASHTO M-205. M.A. Industries has a strict quality control program inspecting all our products to insure conformity to ASTM and AASHTO standards.

All M.A. Industries' plastic test cylinders leave our manufacturing facility only after receiving authorized approval from our Quality Control Manager that our molds meet the standards.

Furthermore, M.A. Industries, Inc. certifies that all of its plastic concrete test cylinders are made of polypropylene and can be recycled under Recycle #5. No other material is used in the manufacturing process.

It is not M.A. Industries' responsibility for damages sustained from freight carriers or customer misuse. Should you require additional information, please call 800-241-8250.
