### **Flex Cable Lifter Certification**

M.A. Industries, Inc. certifies that all Flex Cable Lifters meet OSHA Directive 1926.704 (c), which states "Lift devices which are embedded or otherwise attached to precast concrete members, other than tilt-up member, shall be capable of supporting at least four times the maximum load applied or transmitted to them". The Safe Working Load for the Flex Cable Lifter is 9,000 lbs.

M.A. Industries, Inc. certifies that all Flex Cable Lifters are assembled in Peachtree City, GA USA.
