Lift Insert Certification

M.A. Industries, Inc. certifies that all Lift Inserts meet OSHA Directive 1926.704 (c), which states "Lift inserts which are embedded or otherwise attached to precast concrete members, other than tilt-up members, shall be capable of supporting at least Four Times the maximum load applied or transmitted to them".

M.A. Industries, Inc. certifies that all Forged Steel Lift Eyes meet OSHA Directive 1926.704 (d), which states "Lift hardware shall be capable of supporting at least five times the maximum intended load applied or transmitted to the lifting hardware".

In order for M.A. Industries to conform to these OSHA Directives, M.A. Lift Inserts are rated at 3500 lbs each and M.A. Lift Eyes are rated at 4500 lbs each.
