Manhole Step Certification

M.A. Industries, Inc. certifies that any quantities of the M.A. Industries, Inc. steel reinforced copolymer polypropylene manhole steps meet the following specifications:

- 1) ASTM C-478, section 16 Manhole Steps and Ladders (ASTM C 497 is Method of Test).
- 2) AASHTO No. M-199-811 portion for Manhole Steps (when properly installed)
- 3) ASTM D-4101 pp0344b33534z02 Copolymer Polypropylene.
- 4) ASTM A-615 and A-706 Grade 60 ½" steel reinforced rod. This letter further certifies that all steel used in all M.A. Industries' manhole steps is 100% made in the United States of America.
- 5) OSHA Directive STD 01-01-009 of December 29, 1978 (manhole steps when properly installed).
- 6) OSHA 29 CFR Part 1910.24(b)(2) of January 2017. (manhole steps when properly installed).
- 7) OSHA requirement 1910.24(b)(i-iii) & 1910.244(b)(2)(v); when properly installed.
- 8) Federal Specifications RR-F-621E paragraphs 3.8 and 6.2e for non-sparking steps.

M.A. Industries, Inc. further certifies that any and all quantities of the M.A. Industries, Inc.'s steel reinforced copolymer polypropylene manhole steps withstand an 800-pound load and will exceed a 1,500-pound pullout test when installed properly.

If you have any questions, feel free to contact me at 1-800-241-8250.

Sincerely,

Scott Peacock
