

MEETS:
 ASTM C-478
 ASTM D-4101
 ASTM A-615
 AASHTO M-199

Minimum Insertion Line makes it easy to check that steps are driven in correctly.

When these steps are embedded to "Minimum Insertion Line", it has been proven that pull-out force surpasses ASTM Standard C478 by a factor of 8 when used in drilled holes and 10 times when used in conjunction with M.A. Straight Inserts. Results greatly increase when driven fully into drilled holes or M.A. inserts.
